## OBJECTION TO REFUSAL.

BERLIN, Thursday, May 29.—(By The Associated Press.)—The government has published a statement in black type under a huge head "Warning," saying that those planning to separate the Rhineland from Germany and to create an independent republic are guilty

of high treason, punishable with life-long imprisonment, and that the government's duty would be to take measures to the fullest severity of the law against those persons.

Civil Wounded to  
Get Trade Training  
As Well as Soldiers

WASHINGTON, May 30.—It took the Senate Committee on Education and Labor about one minute this morning to decide that:

(1) Every soldier injured in the war is entitled to vocational training whether he is receiving compensation or not, and that

(2) Every man injured in civil life is entitled to similar rehabilitation. A man injured in civil pursuits is entitled to be considered to have been injured in the service of the Republic just as much as a man in the military service." Dr. C. A. Prosser, chairman of the Federal Board for Vocational Training, told the committee, and none dissented.

According to Chairman Kenyon of the committee, there is every prospect that Congress will act quickly on the two decisions arrived at by the committee.

The moment the bill is passed, 4,000 crippled soldiers who have been waiting weeks and months for their vocational training will be started on new careers, and steps will be taken to open a new life to the hundreds of thousands who have suffered wounds in industrial effort.

Dr. Prosser told the committee that according to the best available estimates there are 500,000 men in the United States who are suffering impairment, total or partial, from injuries received in their occupations; and that another 500,000 are impaired by the effects of disease. The number of yearly amputations resulting from industrial accidents alone—not taking account of agricultural, street and other accidents—is 26,000. The total number of amputations resulting from wounds in the war will not exceed 5,000.

A large proportion of the million disabled workers can, Dr. Prosser said, by proper training be made wholly or partly serviceable. He argued that purely as a cold-blooded economic proposition the nation could not afford to lose the possible service of injured men.

States to Share Expense. The bill for vocational training of the civil wounded is the same as the one introduced in the last congress, with minor amendments. It provides for federal appropriations, up to \$1,000,000, to be matched by state appropriations. The training to be directed by state authorities in accordance with federal appropriation, which is regarded merely as a stimulus.

The federal contribution is limited to expenditures for training purposes only, leaving arrangements for equipment and maintenance of students and facilities to be provided entirely by the states. Civil servants of the United States are entitled to the benefits of the act and the federal board for vocational training is authorized to receive gifts and bequests to take care of special cases, including living expenses.

Turks Retire Passively  
Before Greek Advance

PARIS, May 30.—Latest reports on the situation in the East say that Greek armies, proceeding from Smyrna to occupy Macedonia, are meeting no resistance from the Turks, who are retiring before the advance.

Italian troops are said to be occupying the Bagdad Railway from Afium-karahissar Junction to Koni, thus anticipating expected mandates from the league of nations, and placing themselves in a position to prevent massacres and outrages which, it is believed, are sure to follow when the Turks learn the fate of the Moslem Empire.

Difficulties of Quick  
Demobilization in Germany

PARIS, May 30.—Criticism of the slow methods of demobilization in Germany, the "Tagesspiegel" admits the prevailing difficulties, but says that to keep soldiers in barracks with nothing to do without the usual strict discipline is to simply make Bolsheviks out of them. Any good man among them desert, not coming back from their leave and openly say that they are disgusted with the complete absence of discipline. The journal adds that the failure to demobilize these men is deliberate, and is another mode of giving doles to those out of work.

## BLACK-DRAUGHT

## Takes Away Bile

Few people realize the danger of a disordered liver—but it is often the primary cause of a serious illness. By keeping your liver working and in good condition, you may be able to throw off many of the common ailments, which might otherwise result more seriously.

For more than 70 years the old, reliable, Thedford's Black-Draught has been regulating the irregularities of the liver, stomach and bowels. Thousands of people use and recommend this remedy. Numerous letters testify to the fact that Black-Draught has a permanent place in many family medicine chests. A dose every now and then helps to keep the liver in trim and will prevent or relieve such troubles as constipation, biliousness, indigestion, and sick headache.

Black-Draught is purely vegetable, and acts promptly, naturally and without bad after-effects.

Read what E. L. Blackman, of Weleetka, Okla., says about Black-Draught:

"Black-Draught is a splendid medicine. I take it for liver trouble, when the liver gets out of order, bad taste in the mouth and for the usual symptoms of a bad liver. It takes away the bile better than any other liver medicine I have ever used."

Your druggist sells Black-Draught. Get a package for your medicine chest today.

PITTSBURGH'S  
BOYS OF 80TH  
REACH PORT

NEW YORK, May 30.—One year from the day it landed in France with the 80th Division, Pittsburgh's 820th Infantry arrived at Hoboken, N. J., at noon today. Other units included the 305th Signal Battalion, the 315th Machine Gun Battalion and 160th Infantry Brigade Headquarters. All told the soldiers numbered 5,114 officers and men. Brigadier General Lloyd M. Brett commanded.

In speaking of the soldiers General Brett said: "They were wonderful. Pittsburgh may be justly proud of these boys, for they were remarkable warriors. We simply adopted Indian tactics—we worried the Hun at night, we sent out flank movements, we raided his outposts, we fought as we used to fight the Indians and it was remarkably effective. And best of all we had very few fatalities."

The sentiment of the boys regarding a parade in Pittsburgh is mixed, but if General Brett desires it, and he believes they will gladly march, and arrangements will be completed at Camp Dix this week for a review of the 150th Brigade, the balance of which will arrive within the next few days.

The arrival of the boys here was dramatic in the extreme. Scheduled to dock at 7 o'clock this morning, it was 10:35 before the ship passed Ambrose light, and hours later the big converted German vessel now known as U. S. S. Mobile was towed up the North river by many small tugs and pulled into the dock between the other once German owned vessels, the Imperator and the Prinz Frederick Wilhelm.

CARLTON ALLEGES  
POSTAL CONSPIRACY

WASHINGTON, May 30.—Charges by Newcomb Carlton, president of the Western Union Telegraph Company, that Edward Reynolds, formerly general manager of the Postal Telegraph-Cable Company, had attempted to make government operation of the government telegraph system a failure and an alternate defense of and attack upon Postmaster General Burleson were features of today's hearing before the senate committee on communication.

Mr. Carlton told the committee that Mr. Reynolds at the request of Mr. Burleson worked out a plan of coordination of the wires, but at the same time sent letters to officials of the Postal company, asking them to make government operation a failure. Mr. Reynolds subsequently was relieved of his duties as general manager by the postmaster general.

Operation of the wire systems under direction of Mr. Burleson was defended by Mr. Carlton, who declared the postmaster general had no more to do with the deterioration of the telephone and telegraph service than did the members of the senate committee. A superman, he said, could not have prevented deterioration. It was the result of "natural conditions."

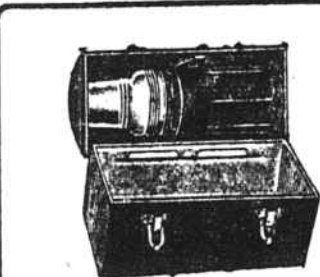

A directly opposite view was expressed by Mr. Reynolds, who took the stand at his own request. Mr. Reynolds declared some of the declarations of Mr. Carlton concerning relations between the Postal Company and Mr. Burleson were "wholly untrue," and charged that an "inferior government operation, the Postal company was being robbed of money and deliberately jobbed."

Wages to Drop First,  
Says Coleman du Pont

WASHINGTON, May 29.—No early return of normal prices nor of a decrease in wages is seen by Coleman du Pont, the Delaware powder manufacturer, according to a letter written to Secretary of Labor Wilson. Mr. du Pont says wages will continue high despite any reduction in the cost of goods. His letter to Secretary Wilson said:

"So long as there is a demand for an article its price will be high. The greater the demand the higher the price and if the cost of this article is mostly labor, the price of labor will continue high on that article and so on down the list. Local weather conditions may affect local crops in certain articles, but at least in that district, the demand for it will be great by reason of the low production and so long as materials, including food stuffs, are high, labor cannot go down much although it is likely that labor will be lowered in price ahead of commodities."

"We are going through a transition period which has followed and will follow every economic disturbance. 'Will wages be higher when things settle down than before? Yes, I think they will, because wages have continued to advance in this country year after year, but the cost of living and the desire for luxuries, too, has advanced so that relatively the condition is the same."

BLANCHE SWEET in  
THE UNPARDONABLE SINGeorgia Whites Burn  
Five Negro Churches

MACON, Ga., May 30.—Following a minor racial clash at Dennis Station, a small community in Putnam County, Ga., a band of white men set fire to five negro churches, two schools and one lodge building in different sections of the county. The trouble was the refusal of a merchant to sell a negro a bottle of soda water.

At a mass meeting late today \$1,100 as a reward for the arrest of members of the band was raised by leading white people and the state was requested to duplicate the offer.

MEMPHIS, Tenn., May 30.—Reports from Hernando and Oliva Branch, Miss., today told of the lynching near Mineral Wells, Miss., of a negro accused of attacking one of three white women who were driving in a buggy on a country road.

CALLED ON WILSON.

PARIS, May 30.—Vittorio Orlando, the Italian premier, called upon President Wilson this morning for a confer-

ence over the details of the Adriatic settlement. It is understood that this settlement is rapidly approaching final shape.

SUPREME COURT WRIT  
TO PREVENT UNFAIR  
TACTICS IN ELECTION

CHARLESTON, W. Va., May 30.—Indications that the city election of the city of Williamson, Mingo county, on June 5 will be hard and bitterly fought are indicated in the handing down of a writ of mandamus by the supreme court today in a petition of G. W. Hatfield against Mayor W. O. Porter, A. L. Hill, clerk, and J. M. Studebaker, Wheeler-Proctor and W. E. Haven, commissioners, constituting the board of commissioners of the city. The court's order in the case commands "each of them to refrain and desist from any and all acts, efforts and attempts to enforce, make effective or carry out the provisions of the alleged ordinance of May 8, 1919." The order further commands them "to in no wise interfere with or molest the legal voters
